

Write a algorithm and draw a flowchart to print the table of 5.

1. **Start**
2. Initialize a variable **number** to 5.
3. Initialize a variable **i** to 1.
4. Repeat steps 5 to 7 while **i** is less than or equal to 10.
5. Calculate **result** as **number \* i**.
6. Print the value of **result**.
7. Increment **i** by 1.
8. **End**
